

AUDAX TOP ERP HYDRONIC HEAT PUMP

MANUFACTURED BY:

AUDAX TOP ErP heat pumps allow more and more advanced solutions in any domestic environment both for heating and cooling and for the production of domestic hot water. The new range of Immergas heat pumps are air-water heat pumps with inverter technology, ideal for stand-alone systems but even in combination with integrated equipment and hybrid systems.

7 YEAR*
WARRANTY

AUDAX TOP ErP

- 3 single-phase versions, 1 three-phase version
- Compatible with external storage tank
- Compatible with gas heating boiler
- Electronic thermal expansion valve
- Modulating fan
- Low consumption system pump
- Gas/Water heat exchanger, expansion vessel, water flow-switch and 3 bar safety valve
- Equipped with remote control (thermostat function class VI), Y water filter 1", condensate drain fitting and antivibration supports
- Pre-loaded refrigerant fluid R410A
